

Innovation that Matters

Energizing the Digital Economy

Brief Profile

Established in 1976, we are one of
**earliest IT companies scripting the
Digital Story**

4500+ people apply insights
to create innovative solutions
to your business needs

For close to **four decades**, we have
been successfully integrating people,
business and technology to create
effective, sustainable business
ecosystems

We deliver business consulting, systems
integration, IT solutions and Internet of Things
(IoT) expertise across industries and business
functions

Uninterrupted record of
profitable growth

Certified **CMMI Level 5, ISO 9001, ISO 20000, ISO 27001, ISO 14000 and ISO 45000**

Continuous track record of
innovation. **Dedicated Product
Development Centre** since the 90s

CMMI DEV / 5

The Vision

To **simplify lives** leveraging the enormous potential of **Information Technology**

The Mission

To solve real world challenges by harnessing the power of technology. We will pursue innovation focused on simplifying lives **providing competitive advantage** to our clients as the real world and IT world converges. In pursuing our mission, we will **deliver cost effective products & services & maintain sustainable growth, build mutually beneficial and enduring partnerships and create long term value** by following sound business practices in dealing with our clients, partners, employees and shareholders. As a learning organisation, Team CMS will pursue continual **self improvement, personal excellence and accountability delivering better than expected business outcomes to our clients – right, the first time.**

Four Decades of Innovation

★★★★★
1976

CMS was born
Mr. Ramesh D Grover started Computer Maintenance Services

1976

1984

1984

Acquired Systime
First major acquisition. Powered CMS's entry into Application Deployment with JDE ERP, understanding that applications are fuel to the business.

★
1985

Set up Product Development
P&D unit set up providing one of the earliest instance of Design in India, Make in India for the IT Industry.

1985

1988

★
1988

Diversified into Traffic Domain
Way ahead of its time, set up a dedicated Traffic organization to solve India's Urbanization challenge.

1999

Securitas Formation
Powering India's ever-growing Economy and the need to move cash securely across point of sales, ATMs & banks.

1999

2001

★
2001

E-Seva Project
Pioneer supporting the government in delivering services for the first E-governance project in India.

2003-05

Acquired Kaycee Industries and NVL Broadcasting
Manufacturing Capability and foray into Media and Broadcasting domain. Early stages of Digital into CMS

2003-05

2007-08

2007-08

CSC & CMS Info with Blackstone
Formed CMS Info along with Blackstone, spinning out Cash Mgt & IT Ser.

CSC Front end Citizen Service Delivery
CSCs across states.

★
2016

Year of Certifications
• CMMI Level 5
• ISO 27001
• ISO 20001

2016

2017-19

★★★
2017-19

Vadodara Smart City
India's first Smart City inaugurated by the PM. CMS technology at work.

West Bengal Smart Grid
Pioneer again. Siliguri district lights up with End-to-End CMS technology for Utilities.

★★★★★
2020-23

ESIC DX journey with largest health provider.
EWDS NCRMP
Kawach Disaster Management System.
GOI Cloud Meghraj & Arogya Setu App
National Health App.

2020-23

2024

★
2024

Kaveri
Digitalization of land records.

We lead in Thought and Action

Thought Leadership

- IoT and IT Integration since 1990.
- Working with massive amounts of data since early 2000.
- Implementing Government digital transformations since 2001

Client Experience

- #1 Government transactions G2C service provider.
- 1st ATC system in India & 1st Smart City implementation
- 25% of generation companies leverage CMS Grid solutions

Deep Expertise

- In-house product development around Digital + Physical offering
- Domain experience combined with contemporary technology
- Multiple Digital transformation initiatives in Govt & Public Sector

Government & Public Sector

50 Million

G2C transactions annually

300 Million Citizens

Served on Healthcare IT

Expertise across financial models, Operations & Mgt

Solution in Service Delivery, Revenue, Social programs, FI, Judiciary & Crime Tracking.

Smart Cities & Mobility

20+ Deployments

Smart Cities & Traffic

200+ Smart Elements

Field deployment

Expertise in ITMS, ICCC, ATC, Public Safety & Enforcement

Indigenous technologies in ATC, Signals, VMS, CDT, ICCC, ECB/PA systems.

Energy Management & Utilities

75000+ Megawatts

Of Power monitored

100+ Energy Systems

Managed

Expertise in Metering, ABT, Smart Grid, Renewables.

Indigenous technologies in Smart Meters, Grid Software, Energy Accounting, DSM

Public Safety & Climate Change

50+ Security Projects

For critical infrastructures

Early Warning Disaster Management System Kerala /NDMA

Expertise in Surveillance, VMS, Analytics, Public Safety.

Indigenous ECB/PA system

Infrastructure Ecosystems

Digital Transformation

Cyber Security everywhere

SIMPLIFYING LIFE through INNOVATION

We power digital experiences for clients

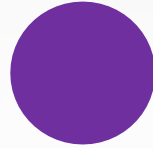

Simplifying Life by integrating the Real and Digital world

Transformation

Business Value Creation

Orchestrate Data, Internet, Mobility and digital technologies to enable new business models

Business Transformation

Internet of things

Data Driven Insights

Customer Experience

Big Data Engineering

Digital Platform

Creating a Digital Workplace

Enhance user experience to clients and employees by deploying applications delivering agility and reliability

Application Services

Application modernization

Block Chain Services

SaaS Offerings

Digital Integration

Digital Business Operations

Core Enterprise & Cloud

Secure Operations in the Cloud

Deliver seamless, integrated, Secure Hybrid cloud with a full line of cyber security, business continuity and disaster recovery services

Cloud Consulting & Advisory

Cloud operations & Managed services

Cloud Design & build Services

Cloud Native Delivery

Hybrid Cloud Solutions

Cloud Security

E-Governance Solutions

Our ICT projects have created thousands of employment opportunities, facilitated the implementation of various government policies and brought in large numbers of citizens into the formal economy.

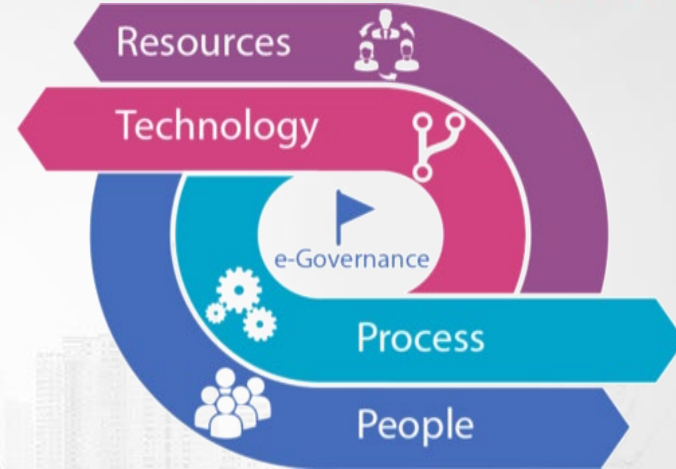

- Leaders & pioneers in E-Governance with 30+ years of experience.
- Citizen Services delivered to the last mile. Presence across 100,000+ villages
- Facilitate 1.8 Mn Electronic transactions monthly.
- Expertise across various financial models, Operations & Management
- Supports Revenue, Social programs, Ease of Doing business, Bringing Transparency and Public Safety initiatives of Government.

Our Offerings

- Land Records Computerization
- Registration Solutions
- Transport Solutions
- e-District, ULB & Municipality
- Digitization & Archiving
- Urban & Rural Citizen Services (CSC)
- Financial Inclusion, UID
- B2C Services
- Systems Integration, Application integration
- Software Development, Customisation
- Portal Development, Data Center & DR
- Build, Operate & Maintain IT applications
- Security & Infrastructure management
- Help Desk Services

Our Clients

- Govt of Karnataka
- Govt of Rajasthan
- Govt of Tamilnadu
- Govt of Andhra Pradesh
- Govt of Maharashtra
- Govt of Uttar Pradesh
- Electronic Corp of TN
- Regional Transport Auth, AP
- WB IG Registrations, West Bengal
- Employees State Insurance ESIC
- Punjab Land Records
- CCTNS, Rajasthan
- MGNREGA
- Tripura PDS
- Commercial Tax, AP
- Warehouse Dev Regulatory Auth
- VISA
- Bharat Sanchar Nigam

- ✓ Integrated Citizen Services
- ✓ e-District solutions
- ✓ Digital Transformation
- ✓ Solutions in Land records
- ✓ Registration of document
- ✓ Transport Department Solutions
- ✓ Solution for Judicial System
- ✓ Dairy Management System
- ✓ Solutions for Police Department
- ✓ FMS, Manpower, IT Support etc

Services**

Traffic Engg + IoT + Software + IT Infra

CMS has the capability for Seamless Integration across the Ecosystem

SYSTEMS INTEGRATION

CMS Computers seamless integration capabilities across Traffic, Software, IT and IoT as well as deep field expertise, is able to efficiently manage key traffic nodes, connecting multimodal networks and leveraging technological innovation to provide distinctive added-value service for the smoothest traffic.

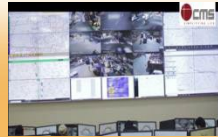

Intelligent Transportation & Traffic Management

- Integrated Traffic Management (ITMS), Area Traffic Control
- Products – UCON, GCDT, VMS, IP PA, ECB, Parking Meters
- Software – Traffview, Traffvision, NeatPark, ECB/PA SW
- Analytics & Computer Vision, RLVD, ANPR, Enforcement

Public Safety Applications

- Citywide Surveillance & Operations, Junction Surveillance
- Emergency Response Systems
- Video Correlation & Analysis for Crime / Investigation, CCTNS
- Early Warning, RealTime Alerts with Computer Aided Despatch

Integrated Command Control & City Dashboards

- Heterogenous Data Collection & Integration
- Cross Agency Collaboration, Incident management with KPI's
- Integrated System Monitoring & Visualizations
- Datacenter, Cloud & Information Security Services

Smart Campus

- Campus-wide Surveillance & Energy Monitoring/Smart Grid
- RFID based Access Control & Intrusion Detection Systems
- Asset Tracking & Parking Management
- Workforce Management & Front Office Digital Lounge

Citizen Experience

- Electronic Delivery of Citizen Services
- Citizen Portal & Engagement Platform
- Workflow and Crowd Sourcing applications
- Single Window – Ease of Doing business Services

CMS can help:

- ✓ Improve Traffic Management, Optimize Road Capacity & Enhance Travel experience.
- ✓ Predict, Monitor, help mitigate Crisis through Early Warning & Real Time alerts as well as crowd management
- ✓ Provide Operational Support to Citywide & Campus-wide Surveillance and management
- ✓ Integration of all Physical & IT City/Campus assets
- ✓ Improve Citizen Experience through Service Delivery, Citizen Portals & Engagement apps
- ✓ Co-ordinate Multi agency Responses and alerts
- ✓ IT Datacenter & DR systems with Information Security & Compliance management
- ✓ Provide optimized visualization of key events
- ✓ Automated management reporting and trend analysis

Power Generation

Driving operational excellence in Generation Companies. Asset Utilisation.

Smart Distribution

Leveraging Smart Grid technologies for agility and higher profitability

Townships & Consumer

Deliver personalized customer experience & give stakeholders more control of their energy sources and usage.

Connected Intelligence Solutions

Capture opportunities across Value Chain through Digital Transformation leveraging Information flows – Asset Management, Plant Maintenance, Blockchain.

Agile IT

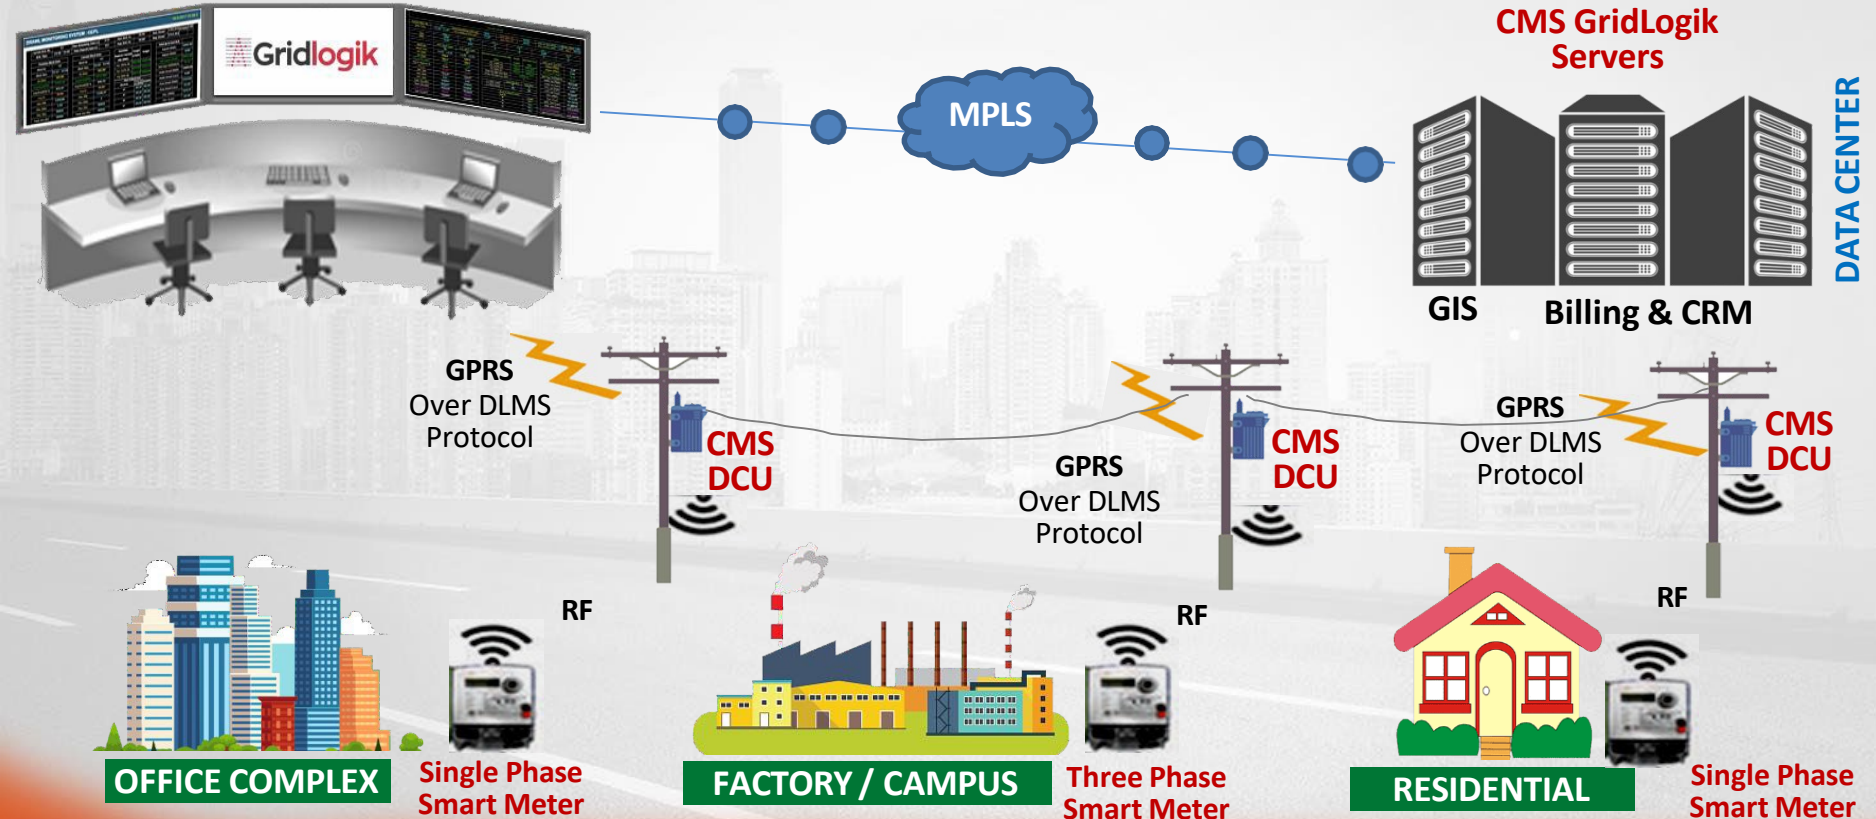

Real time available, scalable systems spanning IT & IoT technologies using Computing Infrastructures and Cloud.

CMS End to End Smart Grid Solution

Integrated Command Control

Software Assets

- KAWACH Disaster Management System
- SARVA ERP System – Back Office
- Digital Lounge – Front Office
- Case Watch System for Judiciary Tribunals
- eDistrict Citizen Services platform
- Reach my India (RMI) B2B Service Portal
- GridLogik Energy Platform
- DciFER Energy Forecasting
- CityView Command Control Center (ICCC)
- Traffview Area Traffic Control Platform
- TraffVision AI/ML Vehicular Classification
- NeatPark Parking management
- UNO & mUNO Workforce Management

Indigenous Hardware Assets

- Traffic signalling AC & DC UCON Controllers
- LED aspects (Dot matrix and Central source)
- Count Down Timers, Variable Messaging Signs
- ECB & PA Public Safety Systems
- ABT Energy meters,
- Smart Meters & Data Concentrators

Support Current Infrastructure

Scalable Computing
Legacy Support
Application Maintenance Services
Compliance

Enable Digital Transformation

Cloud Transition / Migration
On-Premise + Cloud Integration
Application Modernization
Enabled Information Security

Create Client Value

IT-IoT Integration
Big Data Analytics / Machine Learning
Domain / IP based Solutions
Automation
SLA based Services

- End –to End Services
- Diversified and Vendor/OEM neutral
- Constant Assessment & Roadmap dev.
- Infra Consolidation/ Optimization
- Quick provisioning / Automation
- Flexible Service Delivery models
- Strong Alliance /Partnerships
- ITIL Compliance

Our Strengths in IT Services

IT Landscape

- 8000+ Servers
- 30 PB+ of Enterprise storage & Backup
- 4000 + Routers
- 10000+ Core, Dist. & Access Switches
- 600+ Security Devices , firewalls, IPS/IDS etc

Customers

- 140+ Customers
- Very large to SMB
- Government
- Public Sector
- Enterprise

People

- 3400+ IT resources
- 20/58/22 % of L1/L2/L3 split
- 70% of the resources are certified in their Tech domain
- 90% Retention

Pan-India Presence

- 14 Offices across india
 - Metros
 - Key State Capitals
- 100+ support locations – with resident engineers
- 35,000 franchisee locations

COMPLIANT

We follow ITIL Processes and Best Practices using Industry Standard ITSM tools to provide Service Desk and Service Management services

CMS Value Proposition

The combined experience of multiple engagements in chosen domains plus Deep expertise in **Operations, IT, IoT, Software and Digital Technologies** delivers differentiated value.

Vast Experience of over 45+ years of Project Management, currently running 100+ live projects across the country. Extensive Experience in eGovernance, Traffic, Smart City and Energy with over 500+ client engagements.

Deep Operation experience running several government programs over 25+ years. Ground level experience running Smart City, City Surveillance, Energy management projects, delivering Citizen Services and Digital transformations..

Expertise combining Hardware, Firmware, Software, Middleware integrating IT & IoT technologies across industry domains. Internal Product development and open IP ensures flexibility in meeting user requirements.

A vendor-neutral, collaborative approach to project management bringing best practices across Implementation, Integration & Customization delivering business value has ensured success across projects undertaken.

Multiple Long term drivers, strong annuity based visibility and continuous track record of profitability ensures project execution without frequent disruption.
